Community Feedback

I'm very grateful to the COTEF team for bringing Esohe to our school. I learned that I should keep myself pure, make good decisions, and stay away from anything that can destroy my future. I was also happy to receive the gift pack. These gifts will help me in my studies. Thank you for caring about us and encouraging us to become better children.

Abdulrahman Omobass

2025 Student Beneficiary

I was happy to benefit from the free medical check up. The doctors and nurses attended to us very well and gave us good advice. This really helped many of us because not everybody can afford to go for medical check ups all the time.

I am also very happy because my child came home with many gifts. They gave the children Miss Emmanuella's book, exercise books, a mathematics set, stationery, and other school items. These things will really help us as parents and encourage our children to learn better.

Mrs. Emmanuel

Parent Beneficiary

On behalf of the management, staff, pupils, and parents of Marren School, I sincerely appreciate the COTEF team for the life transforming outreach tagged ESOHE.

The session on sexual purity and responsible living was timely, age appropriate, and delivered with wisdom and compassion. Our learners were encouraged to make godly choices, value themselves, and understand the importance of living a life of integrity. We are also grateful for the generous distribution of stationery, mathematics sets, exercise books, and other educational materials. These gifts have brought joy to our learners and will support their academic journey.

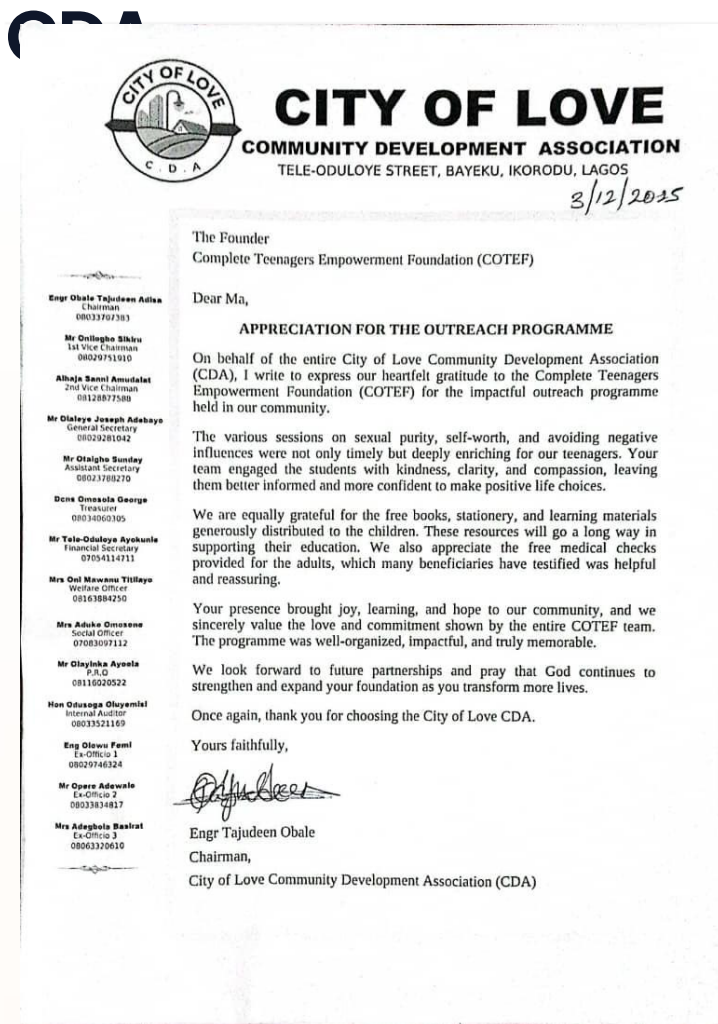

The free medical outreach provided for parents and members of the City of Love CDA Community was another remarkable aspect of the programme. Many benefited from health checks, professional medical advice, and the opportunity to become more conscious of their wellbeing.

Thank you for your generosity, dedication, and genuine concern for the holistic development of teenagers and families. We look forward to more opportunities to partner with COTEF in making a lasting impact on our communities.

Ayokunle Tele-Oduloye

Proprietor, Marren School

Letter of Appreciation – City of Love

Esohe 2025 was so impactful that the host community executives wrote a letter to us expressing gratitude and joy for the impact the initiative had on their children and the community.

Join Us In Empowering Lives
