VOLUNTEERS ENGAGED

Overview: ESOHE 2026 provided underserved children with essential academic resource packs (notebooks, pens, math sets, self-help books) alongside personal identity workshops, quizzes, and parental health screenings. The initiative successfully bridged educational gaps and empowered local families in community development.

About COTEF & Purpose of ESOHE

Complete Teenagers Empowerment Foundation

Vision: A generation of wholesome teenagers equipped & ready to positively impact their world.

ESOHE – Gift of Grace Initiative

ESOHE is COTEF's annual community outreach designed to alleviate socio-economic barriers to education for children in low-income communities. It delivers vital academic supplies, instills moral/identity guidance, and promotes holistic family health support through collaborative community efforts.

Background & Problem Statement

Educational Needs: In target communities, many families face severe financial constraints that prevent them from purchasing basic learning supplies like notebooks, writing materials, and geometry kits.

Personal Development Gaps: Teenagers often lack positive identity reinforcement and guidance, rendering them vulnerable to negative peer pressures and reduced academic self-confidence.

Family Health Barriers: Limited access to basic health screening for parents impacts overall family welfare and community stability.

Strategic Event Objectives

Resource Provision

Deliver 300+ comprehensive educational packs containing notebooks, pens, math sets, and personal growth books to underserved students.

Identity Building

Facilitate interactive identity sessions and personal development conversations for teenagers to build self-esteem and purpose.

Community Wellness

Conduct free health checkups and wellness assessments for attending parents and guardians to encourage preventive healthcare.

Educational Resource Distribution

Resource Pack Highlights

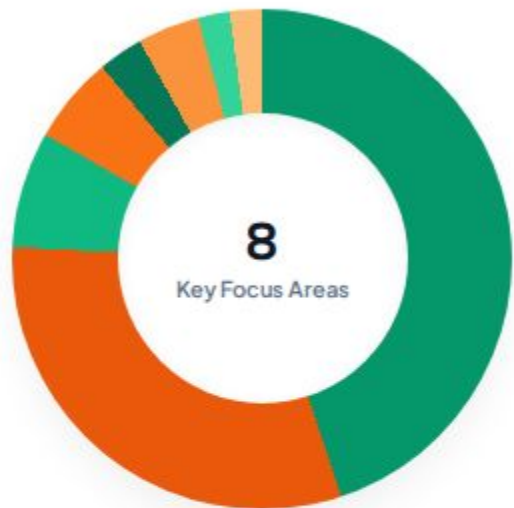

Each beneficiary received a tailored academic kit designed to support them throughout the school term:

- ✓ **Notebooks & Stationery:** Standard writing materials for daily classroom work.
- ✓ **Mathematical Set:** Geometry and calculation tools for STEM subjects.
- ✓ **Self-Help Book:** Selected reading to cultivate mindset and character development.
- ✓ **Value Per Kit:** Approx. ₦12,000 estimated investment per child.

Miscellaneous Expenses & Bank Charges

Key Workshop

Key Session Impact

Identity Workshop: Facilitated by Ms. Remilekun Sonaiké, focusing on identity, purpose, and overcoming self-limiting beliefs among teenagers.

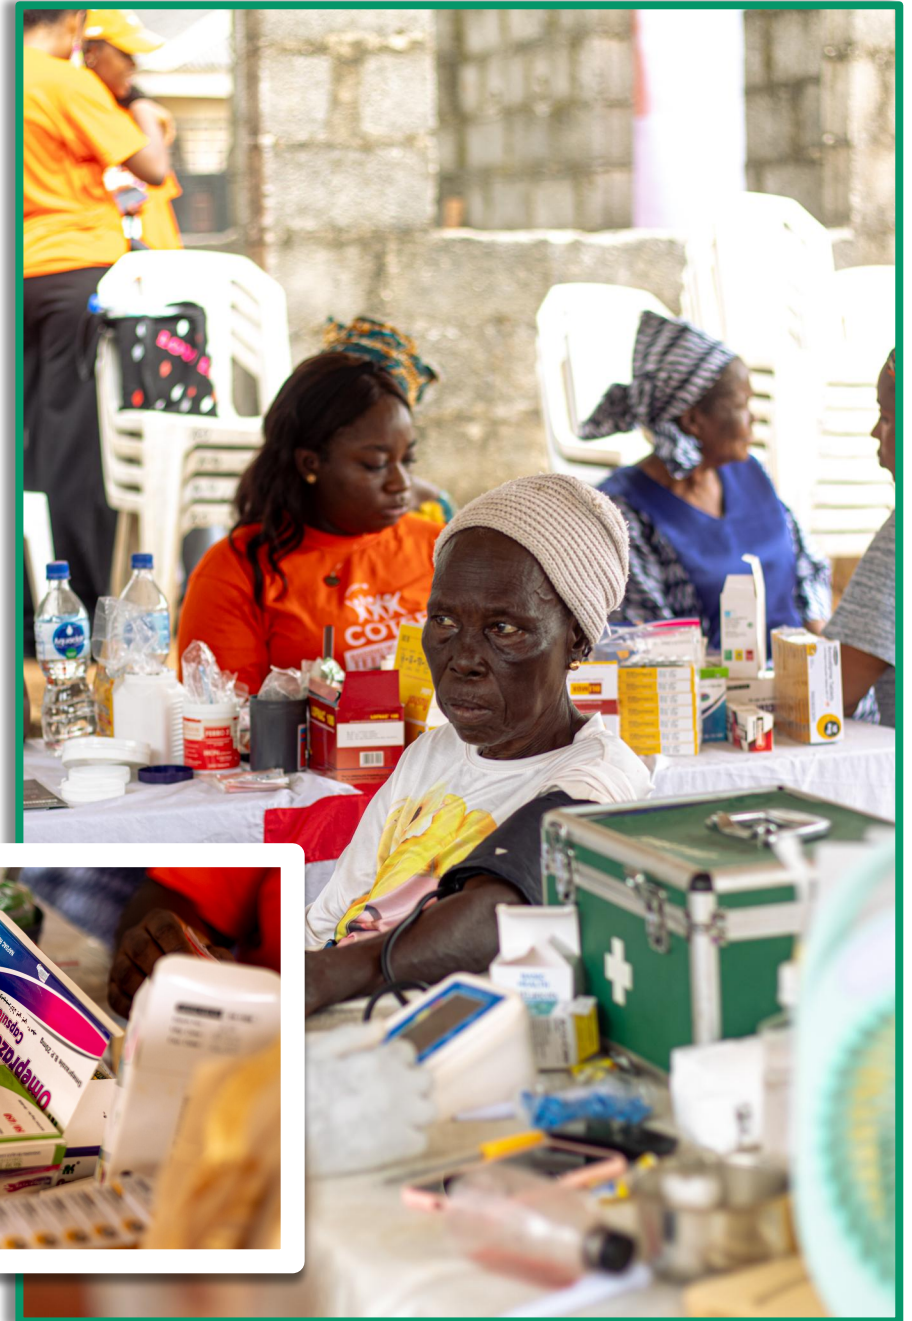

Breakout Sessions: Facilitated by experienced professionals, on gender identity.

Parenting Workshop: Facilitated by Mrs Omolabake Oluwalere, an experienced parent & children coach, educating parents on the importance of creating a safe space for their children/wards to feel heard & loved.

Medical Outreach

Parental Health Check:

On-site medical professionals provided complimentary blood pressure readings, drug prescription, health advice, and referrals for attending parents and guardians.

Volunteer Force & Outreach Support

Program & Protocol Team: Managing orderly check-ins, program coordination and distribution.

Fundraising & Welfare Team: Solicit for funds, procurement, and general welfare for the event.

Medical Personnel: Doctors and nurses volunteering for parent wellness checks.

Media & Communication: Capturing high-resolution photos, interviews, and impact stories.

Logistics and operations: Managed rentals, transportation and venue management.

Challenges & Key Lessons Learnt

⚠️ Key Challenges

Late Funding Conversions: Unpredictable sponsor release timelines created procurement pressures leading up to the event date.

Crowd Control: Parents registered under-aged children, resulting in extra logistics management on-site.

💡 Lessons & Adaptations

Early Fundraising Cycle: Initiate corporate sponsorship campaigns at least 5 months prior to ESOHE 2027.

Pre-Registration: Work with schools within the community to provide only students within the desired age bracket.

Sustainability Roadmap for 2027

1

Mentorship Network

Pair teenagers with young professional mentors for long-term guidance.

2

School Partnerships

Collaborate with public schools for quarterly academic monitoring.

3

Multi-Year Sponsors

Transition from single event gifts to multi-year corporate partnerships.

4

ESOHE 2027 Launch

Expand target reach to 500+ children across expanded communities.
